The Board of Directors of

S P JAIN SCHOOL OF GLOBAL MANAGEMENT

(CRICOS Provider Code: 03335G)

Dubai, Mumbai, Singapore and Sydney

acting on the advice of its Academic Board certifies that

Anh Viet Doan

has fulfilled all the requirements for the

BACHELOR OF DATA SCIENCE

and is hereby

admitted to the rights and privileges belonging to the qualifications and achievement,

on this the 23rd day of May 2024

S P Jain School of Global Management — Dubai Mumbai Singapore Sydney

Chairman of the Board of Directors

Chairman of the Academic Board

Registrar

The qualification is recognised within the Australian Qualifications Framework
SP Jain School Of Global Management Pty Limited is a Institute of Higher Education in Australia and also recognised in Dubai

Australian® Higher Education Graduation Statement

the graduate

Family Name: Doan

Given Name(s): Anh Viet

Student Number: BS21DON043

the award

Name of award:

BACHELOR OF DATA SCIENCE

Detail

The Bachelor of Data Science is a Level 7 qualification under the Australian Qualifications Framework. It is taught in English and undertaken over 3 years of full-time study. Details pertaining to admission requirements and course rules are available on the School's website at https://www.spjain.org/programs/undergraduate/bachelor-of-data-science.

Features

The Bachelor of Data Science (BDS) is a multi-city course. The entire duration of academic study is split between the School's campuses in Mumbai and Sydney. Students may opt to pursue the entire duration of the course in Sydney or split the duration of the course between Mumbai and Sydney.

awarding institution

S P Jain School of Global Management (S P Jain) was established in 2004 in Dubai and has since, established campuses in Singapore (2006), Sydney (2012) and Mumbai (2015). S P Jain is a registered Institute of Higher Education regulated by the Australia Government's national higher education regulator – the Tertiary Education Quality and Standards Agency (TEQSA). The School offers a number of TEQSA accredited higher education awards under the Australian Qualification Framework (AQF). S P Jain is authorised by TEQSA to deliver these AQF awards in Australia and at S P Jain's overseas campuses. S P Jain is registered with Australia's Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS 03335G) to enroll international students into higher education awards in Australia. For more information on the School, please visit: www.spjain.org.

graduation statement

The Australian Higher Education Graduation Statement is provided by Australian higher education institutions to graduating students on completion of the requirements for a particular higher education award. It provides a description of the nature, level, context and status of studies that were pursued by the individual named. Its purpose is to assist in both national and international recognition of Australian qualifications and to promote international mobility and professional recognition of graduates.

Total Credits	**78**
Cumulative Grade Point Average (CGPA)	**3.52**

Key to grading
Letter grades denote the following levels of performance:

Letter	Performance Level
A	*Excellent*
B	*Good*
C	*Satisfactory*
D	*Low Pass*
F	*Fail*
I	*Incomplete*
W	*Withdrawn from the course*
E	*Exemption*
PC	*Pass Conceded*

In addition, plus (+) or minus (-) signs may be added to letter grades to indicate precise performance. The numerical values of letter-grades are given below:

Letter Grade	Grade Point
A+	*4.30*
A	*4.00*
A-	*3.70*
B+	*3.30*
B	*3.00*
B-	*2.70*
C+	*2.30*
C	*2.00*
C-	*1.70*
D	*1.00*
PC	*0.50*
F	*0.00*

The following non-letter grades and notations may be used in the academic records but are not included when calculating cumulative grade point average (CGPA). Students earning I or W grades may complete the respective subject later within a specified period and earn appropriate credit

Pass	*Pass for course with pass/fail grading only*
Fail	*Fail for course with pass/fail grading only*
I	*Incomplete*
W	*Withdrawn from the course*
E	*Exemption*
PC	*Pass Conceded*

CGPA is the weighted average of all the grade points earned by a student in the course divided by the total number of credits in the course.

A student who has not completed all the requirements for a subject may be assigned an incomplete grade (I grade) and may be required to complete the work within a specified period. If this condition is met satisfactorily, the 'I' grade will be replaced with a substantive grade.

Students who withdraw from a subject after the specified census date or do not submit satisfactory assessable items will receive an F grade for the subject. This usually results in both academic and financial penalty as the fail grade is included on the student's Academic Record and the subject will need to be taken again successfully for the student to graduate.

Special achievements, recognition and prizes:

Anh Viet Doan has been on the **Dean's List** for outstanding academic performance in **Semester 3** of the Bachelor of Data Science course.

description of the **australian higher education system**

Australian Qualifications Framework

Introduction

The Australian higher education system consists of self-governing public and private universities and higher education institutions that award higher education qualifications.

The Australian Qualifications Framework

The Australian Qualifications Framework (AQF) is a single national, comprehensive system of qualifications offered by higher education institutions (including universities), vocational education and training institutions and secondary schools.

The AQF has 10 levels, each with defined criteria based on a taxonomy of learning outcomes. Higher education qualifications are placed between level 5 (the Diploma) and level 10 (the Doctoral Degree). The Bachelor Degree is at level 7. Each AQF qualification has a set of descriptors which define the type and complexity of knowledge, skills and application of the knowledge and skills that a graduate who has been awarded that qualification has attained, and the typical volume of learning associated with that qualification type. The full set of levels criteria and qualification type descriptors can be found by visiting www.aqf.edu.au.

The main AQF qualifications awarded by higher education institutions are Bachelor Degrees, Masters Degrees and Doctoral Degrees. There are also three qualifications at the sub-degree level: the Diploma, the Advanced Diploma and the Associate Degree. At the graduate level but below the Masters Degree are the Graduate Certificate and Graduate Diploma. The Undergraduate Certificate, which was added to the AQF in 2020, is a higher education qualification that is not allocated to a single AQF level, but recognises completion of a short course, equivalent to half a year's study (0.5 Equivalent Full Time Study Load) toward an existing qualification at AQF level 5, 6 or 7.

Level	Qualification Type	Summary
-	Senior Secondary Certificate of Education	Graduates with this qualification will have knowledge, skills and values for diverse pathways to further learning, work and effective participation in civic life
Level 1	Certificate I	Graduates at this level will have knowledge and skills for initial work, community involvement and/or further learning
Level 2	Certificate II	Graduates at this level will have knowledge and skills for work in a defined context and/or further learning
Level 3	Certificate III	Graduates at this level will have theoretical and practical knowledge and skills for work and/or further learning
Level 4	Certificate IV	Graduates at this level will have theoretical and practical knowledge and skills for specialised and/or skilled work and/or further learning
Level 5	Diploma	Graduates at this level will have specialised knowledge and skills for skilled and/or paraprofessional work and/or further learning
Level 6	Advanced Diploma Associate Degree	Graduates at this level will have broad knowledge and skills for paraprofessional and/or highly skilled work and/or further learning
Level 7	Bachelor Degree	Graduates at this level will have broad and coherent knowledge and skills for professional work and/or further learning
Level 5-7	Undergraduate Certificate*	Graduates with this qualification will have foundational knowledge and skills for further study, professional upskilling, work and participation in lifelong learning
Level 8	Bachelor Honours Degree Graduate Certificate Graduate Diploma	Graduates at this level will have advanced knowledge and skills for professional highly skilled work and/or further learning
Level 9	Masters Degree	Graduates at this level will have specialised knowledge and skills for research, and/or professional practice and/or further learning
Level 10	Doctoral Degree	Graduates at this level will have systematic and critical understanding of a complex field of learning and specialised research skills for the advancement of learning and/or for professional practice

* As at the publication of this document, the Undergraduate Certificate qualification type must not be conferred after 30 June 2025. Undergraduate Certificates that have been conferred prior to this date will continue to be recognised as valid AQFqualifications

SCHOOL OF GLOBAL MANAGEMENT DUBAI SINGAPORE SYDNEY

Admission

Requirements for admission to particular awards are set by higher education institutions and provide a range of routes for entry and only admit those students considered to have potential to complete an award successfully. Admission of school leavers to undergraduate awards is typically on the basis of the level of achievement in Year 12 secondary education, although some institutions and awards also use interviews, portfolios or demonstrated interest or aptitude. Most institutions also provide alternative entry provisions via bridging or foundation programs for mature age students or other special provisions, such as recognition of prior learning from previous study. Admission to post-graduate awards is generally based on the level of achievement in previous higher education studies and in most cases, admission to PhD awards is based on high achievement in a research Masters Degree or in a Bachelor Degree with first class honours or second class honours division A.

Quality

Quality assurance and stringent approval requirements for higher education institutions ensure that Australia has an international reputation for high quality education.

The Tertiary Education Quality and Standards Agency (TEQSA) was established on 30 July 2011 as a new national regulator and quality assurance agency for higher education. TEQSA is an independent body with the powers to regulate university and non-university higher education providers and monitor quality against standards. Its purpose is to protect student interestsand the reputation of Australia's higher education sector through a proportionate, risk-reflective approach to quality assurance that supports diversity, innovation and excellence.

From 29 January 2012 TEQSA assumed responsibility for registering and re-registering providers and accrediting and re-accrediting awards for higher education providers that do not have authority to accredit their own awards. At the time of registration, re-registration, accreditation and/or re-accreditation, TEQSA evaluates the performance of a higher education provider against the Higher Education Standards Framework. The framework specifies the minimum standards that all higher education providers must meet and continue to meet in order to remain registered.

TEQSA also monitors provider risks and performance and identifies good practice to support continuous improvement within the sector, guide sectoral quality enhancement and inform policy and research.

The Higher Education Standards Panel, which is independent from TEQSA,is responsible for advising the Minister for Education and TEQSA on the development, monitoring and interpretation of the Higher Education Standards Framework.

All higher education institutions receiving Australian Government financial support must meet quality and accountability requirements that are set out in the *Higher Education Support Act 2003*. The Australian Government also uses a range of tools to measure and monitor the quality of outcomes, while the interests of international students are protected by the *Education Services for Overseas Students Act 2000* and the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS), providing tuition assurance and ensuring that institutions listed on CRICOS meet defined minimum standards.
